

»»» x-trans.eu

...designed for

**cross border
eGovernment**

project-objectives of x-trans.eu

- Develop an internet-application for applying for **heavy- and oversize-load cross-border transports (starting with Austria and Germany).**
- Implementation of the P23R-logic (Process Data Accelerator, www.p23r.de) in order to transfer the necessary data automatically to the individual applications **required by the connected countries.**
- Provide a basis-application for **connecting all bordering countries of Germany and further countries within the EU.**

Some parameters of heavy and oversize load transports in Germany

- about **350.000 applications / year** for permits
- therefrom about **25% cross-border**
- **9 bordering countries**

... an example:

transport of a tower tubing segment

from: Weiherhammer
(Germany)
to: Tattendorf
(Austria)

Dimensions of transport:

- Length: 40,00 meter
- Width: 5,40 meter
- Height: 6,10 meter
- Weight: 92,00 tons

process to apply for a permit ... today

more than 1 million
applications since 2007

Today the permissions
in the start, destination
and every transit country
have to be requested
seperately!

more than 35.000
applications in 2012

process to apply for a permit ... with x-trans.eu

data-selection and
transformation rules

NON-STOP-GOVERNMENT

output of the
destination format

- The necessary data have to be collected only **once** by the transport company in x-trans.eu (single point of contact).
- x-trans.eu generates and delivers the requests **automatically** to the connected countries.

project status

- **proof of concept**
is successfully finished
- **functional requests**
are fulfilled
- **IT-technique**
is ready
- **real pilot-operation**
with several Bavarian and
Upper-Austrian transport-
companies has started

starting the real
pilot-operation
(Munich - May 2013)

major challenges of the project

- alignment of **different legal basis** of the participating countries **into one technical platform**
- winning **further neighbor countries** over to connect their applications to x-trans.eu (→ countries will be asked for their interest)

**Thank you very much
for your attention.**
